June 16th 90,

My dear Sir

If I come to philadelphia, & bring my own metal, Could you kindly coin for me - in a half-dollar silver die - a dozen or more bi-metalic pieces; described in the inclosed article, to show congress an ocular demonstration of the solution of the silver puzzle

& believe me very truly yours

Asks if he could bring metal & have it coined into dozen or more bi-metallic pieces. It is plain that such coin, could not be used for fraudulent purposes; but would be a fair representation of a bi-metalic dollar.
